

Westfield Hospital, a Joint Commission accredited facility, is a full service acute care general hospital. Along with 3 Operating Rooms, Westfield provides 22 beautiful beds on the second floor and a 3 bed Intensive Care Unit on its third floor.

The Emergency Department, always open, sees patients within minutes of arrival.

Westfield offers outpatient diagnostic testing convenient to the patients and their doctors. Westfield's in-house Lab is available 24/7; no appointment is necessary.

X-Ray is also available 24/7; no appointment needed.

CT Scan is available 24/7; please call 610-973-8400 for your appointment.

Other diagnostic testing include Ultrasound, EEG and EMG testing and an open MRI unit. Please call to schedule your appointment.

**Prior to your surgery date:**

Your surgeon or medical physician will perform a physical examination within 30 days of your scheduled surgery date. This is called a History and Physical or H&P.

**Pre-Admission Testing:**

Your surgeon or medical physician may also order blood work (lab), a chest X-Ray, EKG and/or other testing in preparation for your surgery.

An EKG is required for patients receiving anesthesia if one or more of the following conditions apply:

- Diabetes
- Age over 50
- Cardiac History
- High Blood Pressure
- Cardiac symptoms in past 3 months

If you had an EKG within the past six months then please have it faxed to Westfield Hospital at 610-973-8479. If not, you may obtain an EKG from your family

physician or at Westfield Hospital. We ask that you call to schedule an appointment for your [pre-admission testing at Westfield Hospital at 610-973-8441.](#)

**What to bring with you anytime you come to Westfield Hospital:**

1. Photo I.D.
2. Insurance card(s)
3. List of medications, including over-the-counter, such as vitamins and herbal supplements.
4. Your History and Physical or comparable forms if given to you by your surgeon or family physician.
5. Copy of Living Will or Advance Directive, if applicable.

**Patient Responsibilities:**

1. Follow all pre-op instructions from your surgeon regarding restriction of food and drink.
2. Avoid smoking 24 hours before and after surgery.

3. Follow all pre-op instructions by your surgeon including whether to take medications the day of surgery.
4. Arrange for transportation to and from Westfield Hospital (this person MUST be available by telephone or stay at the hospital during your surgery.).
5. Notify your surgeon if you develop a sore throat, fever or severe cold before your surgery.
6. Shower the night before or the morning of your surgery.
7. Wear comfortable clothing. Leave all jewelry and valuables at home.
8. Do not wear make-up or nail polish.

**Failure to adhere to these requests may result in cancellation of your surgery.**

**Following your surgery:**

You will be provided discharge instructions regarding your post-op care. If you develop adverse symptoms or a change in your condition then please contact your surgeon or proceed to your nearest Emergency Department.
